SKILLS

Frontend:

React, TypeScript, JavaScript, Angular, Redux, HTML5, CSS3, Bootstrap, ExtJS, Vue.js

Backend:

C#, .NET, ASP.NET Core, Web API, EF Core, LINQ, SQL Server, PostgreSQL, Oracle

Architecture & Integration:

REST API, Clean Architecture, SOLID, RabbitMQ, SignalR, Redis, Performance Optimization, Refactoring

AI-Assisted Development:

Prototyping, technical research, code analysis

SUMMARY

Senior Full-Stack .NET Developer with 25+ years of commercial software development experience building business applications, enterprise systems, web platforms, and data-driven solutions using C#, ASP.NET Core, SQL Server, PostgreSQL, Oracle, React, Angular, TypeScript, and JavaScript.

Experienced in delivering end-to-end solutions across frontend, backend, databases, integrations, and modern web applications. Worked on enterprise SaaS platforms, fintech products, workflow automation systems, retail solutions, and large-scale data processing projects.

Strong background in API development, business applications, integrations, and enterprise software development.

Actively uses AI-assisted development tools for prototyping, technical research, and code analysis.

Able to take features from requirements to production and work across the entire application stack.

EXPERIENCE

STARTUP PROJECT

Full-Stack .NET Developer

June 2025 - Present

Contributed to development of a real-time fintech bidding platform.

Key contributions (concise):

- Implemented business functionality across API, database, and frontend layers.
- Developed ASP.NET Core services and REST APIs.
- Implemented real-time communication using SignalR and RabbitMQ.
- Participated in React frontend development.
- Integrated payment workflows and business processes.

Technologies: ASP.NET Core, EF Core, SQL Server, SignalR, RabbitMQ, React.

SOLUTION MENTORS INC Senior .NET Full-Stack Engineer November 2020 – October 2024

Worked on Eccentex Dynamic Case Management, an enterprise B2B SaaS platform used by multiple organizations for workflow automation, customer service operations, and case management.

Key contributions:

- Delivered custom business functionality across frontend, API, integration, and database layers.
- Implemented platform customizations and business workflows using C# and .NET.
- Customized and extended enterprise UI modules using JavaScript and ExtJS.
- Optimized Oracle and SQL Server performance through query tuning, indexing, and refactoring.
- Participated in data migration initiatives and production issue investigations, improving platform stability and reliability.

Technologies: C#, .NET, Oracle, SQL Server, JavaScript, ExtJS, React.

ABC SOLUTIONS PRO Full-Stack .NET Developer August 2018 – October 2020

Primary engineer responsible for end-to-end delivery of two internal business applications:

- Insurance discounts platform (Angular + .NET Core + PostgreSQL).
- Wholesale order management system (React + .NET Core + PostgreSQL).

Key contributions:

- Designed and implemented frontend, API, database, and deployment components.
- Delivered complete business functionality across UI, services, and data layers.
- Developed Angular and React applications for business users and administrators.
- Implemented business workflows and data models.
- Owned assigned features from requirements through production delivery.

Technologies: ASP.NET Core, EF Core, PostgreSQL, Angular, React, Bootstrap.

ITOGO Senior .NET Developer December 2017 - August 2018

Worked on a retail management platform with complex business

workflows, dynamic data structures, and third-party integrations.

Key contributions:

- Analyzed and extended an undocumented system by studying database structures and business processes.
- Implemented full integrations with Datawiz and Horoshop, including API clients, validation, and data mapping.
- Maintained and optimized business and analytical modules.
- Worked on both integration tasks and frontend enhancements using TypeScript, Vue.js, and Kendo UI.

Technologies: C#, ASP.NET MVC4, SQL Server, TypeScript, Vue.js, Kendo UI.

INPRIMEX

.NET Developer

**November 2015 -
December 2017**

Worked on a purchasing and discount platform with complex multi-level bonus and commission calculations.

Key contributions:

- Designed database structures and implemented HTTP services using ServiceStack.
- Developed a scalable multi-level commission calculation engine with recursive processing and SQL optimization.
- Integrated Stripe payment workflows.
- Contributed to core business functionality and data-processing modules.

Technologies: C#, ServiceStack, PostgreSQL, Stripe.

INTELLECT SERVICE

C# / SQL Developer

**December 2014 –
October 2015**

Worked on M.E.Doc electronic document management system.

Key contributions:

- Fixed application defects and implemented functional enhancements.
- Modified WinForms user interface components.
- Optimized SQL queries and database operations.
- Participated in maintenance and support of a large production system.

Technologies: C#, WinForms, Infragistics, Oracle, Firebird.

SYBASE CIS

**Senior PowerBuilder / 2008 – 2014
C# / SQL Developer**

Worked on enterprise and government information systems for

statistical reporting and business registries.

Key contributions:

- Developed functionality for statistical information systems and enterprise registries.
- Developed a distributed data replication subsystem for the State Statistics Service of Ukraine.
- Built a dynamic validation engine for a nationwide census project.
- Implemented data replication logic, SQL procedures, and business functionality.
- Developed user interface components for enterprise applications.
- Optimized SQL performance for reporting and analytical systems.

***Technologies:** PowerBuilder, C#, WPF, SQL Server, Sybase ASE, Sybase ASA, NHibernate, BLToolkit, Infragistics, DevExpress.*

EARLIER SOFTWARE PowerBuilder / SQL 1998 – 2008
DEVELOPMENT Developer
EXPERIENCE

Commercial software development for BanComSviaz, Sportmaster, ECI Online, Sybase SQL Solution, and NPP SVIT.

***Technologies:** PowerBuilder, SQL, Oracle, Sybase, MS SQL Server.*

EDUCATION

Taras Shevchenko National University of Kyiv

Master's Degree in Economic Cybernetics — Diploma with Honors
